- 1 The professor knew what he was talking about, which is the most important part.
- 2 The man.
- 3 Great Professor, great course, learned a lot.

The instructor was very open to helping students when they didn't understand the material both inside and out of class. I know that people were able to meet with him for extra help in office hours if they needed it. He created challenging but worthwhile assignments, like the figured bass exercises which really helped me understand a lot of what we learned since it incorporated so many concepts. I never found the class to be boring, and I looked forward to it every week since the professor always had us working on current or new concepts. I really enjoyed the class overall!
